Energy Transition - Advantages and Challenges for the Republic of Moldova

Valentin Arion; Cristina Efremov

https://doi.org/10.1109/SIELMEN.2019.8905854

Abstract

The paper presents a description of the most important elements related to the global energy transition and to the need of integrating the Republic of Moldova into this wide process of society transformation.

Keywords: renewable energy sources, energy efficiency, low-carbon economy, energy consumption, energy resources
