

12.4.

Title EN	Intelligent security system
Titlu RO	Sistem inteligent de securizare
Authors	Dorogan Valerian, Vieru Tatiana, Vieru Stanislav, Dorogan Andrei, Secieru Vitalie, Munteanu Eugen, Balica Ștefan
Institution	Technical University of Moldova
Patent no.	Pending
Description EN	<p>The intelligent security, alarm and control system represents an autonomous block which uses an accumulator as power supply. The electronic block collects the alarm signals form diverse sensors like humidity, gas or fire sensors and transmits the alarm signal through an alarm sound system, telephone or GSM network.</p>
Descriere RO	<p>Sistemul inteligent de securizare, alarma și control reprezintă un bloc autonom ce se alimentează de la acumulator. Blocul electronic efectuează colectarea semnalelor de alarmă de la diverși senzori de umiditate, gaze, incendiu, spargere și efectuează transmiterea semnalului de alarmă prin sistem de alarmă sonor, înștiințare prin rețeaua telefonica sau GSM.</p> <p>The intelligent security, alarm and control system represents an autonomous block which uses an accumulator as power supply. The electronic block collects the alarm signals form diverse sensors like humidity, gas or fire sensors and transmits the alarm signal through an alarm sound system, telephone or GSM network.</p>
