

## **S1-P.26**

# **Applications of Chalcogenides as Electron Transport Layers and Doping Materials in Perovskite Solar Cells**

M.E. Popa

*Department of Physical and Engineering Sciences, Alecu Russo Balti State University, Balti, Republic of Moldova*

The work contains the experimental results obtained by applying of ZnS and ZnSe thin films in perovskite solar cells. The techniques of preparing and researching the electrical properties of the obtained devices have been described in details.
